REMEMBER THE REASON FOR THE SEASON

Welcome Clearwire Converts

OACYS adds many new subscribers after Clear quits

In April, Clear (Clearwire) announced that it was discontinuing service effective November 6, 2015.

As that deadline drew nearer, Clear customers began to report an increasing variety of problems, with virtually no help from Clear's customer support.

In a steady stream and finally a big rush, a few hundred became new OACYS subscribers – at one stage it became very challenging for our office staff and field installation teams to keep up!

We've received many positive comments from previous Clear customers, regarding the quality and reliability of our service, and the courtesy and professionalism of our staff. Here's a recent example, from a new subscriber (previously with Clear) who stopped by our office:

"Sergio did a great job on the installation. Everything looks good, and I am incredibly happy with your service. I love that if I have any issues I can call your office. Abbi was wonderful helping me with questions and tracking down answers and solutions. Job well done OACYS!"

We'd like to extend a warm welcome to all of our new subscribers. We appreciate the kind words and pats on the back ... we're happy if our customers are happy – that's what OACYS has always been about!

How to reduce Netflix bandwidth usage

You can change the video quality setting in your Netflix account and dramatically reduce the amount of bandwidth you're using. The default setting is "Best quality," which consumes the greatest amount of bandwidth and significantly reduces the number of movies you can watch before running into monthly bandwidth restrictions (see Page Two). By changing this setting to "Good" (*in My Account at Netflix.com*) you can watch **three times more movies** without hitting restrictions, reduce buffering, and chances are you'll hardly notice any difference in viewing quality ... give it a try!

OACYS Bandwidth Policy

Since we have so many new subscribers, it may be useful to repeat our Bandwidth Prioritization System, which eliminates excess usage surcharges.

Refer to the Service Plans chart at the bottom of the page and note the recommended Usage Guideline for your Plan Type. Then use the following graphic to illustrate how the bandwidth policy works:

HIGH PRIORITY. Full speeds are always available to users who stay *below* their recommended Usage Guideline, even during periods of peak traffic.

** Find the recommended "Usage Guideline" for your selected Plan Type in the chart below. You can monitor your usage via User Admin on our website.*

MID PRIORITY. Full speeds are available to users who stay *below double* their recommended Usage Guideline, with possible reduced speeds only during periods when their tower radio might approach peak traffic capacity.

LOW PRIORITY. Speeds are reduced by 50% for users who *exceed double* their recommended Usage Guideline, deferring to higher priority users during periods of peak traffic.

** Bandwidth usage for each user account is updated daily, on a continuously rolling 30-day cycle.*

Tired of satellite? You're not alone ... many of our new OACYS accounts are customers switching from satellite, DSL, and others. Tell your friends and receive a referral credit for up to a month's free service.

Fan Mail

"Your service is great! I was with another local wireless ISP previously and had nothing but problems. OCS is very professional and you have superb customer service." -B&JS

OACYS WIRELESS INTERNET SERVICE PLANS

Wireless Plan Types	Speeds (Mbps)		Usage Guideline	Mailboxes	One-Time Fees	
	Download	Upload			Installation	Monthly Service
<i>(Note 1)</i>					<i>All Plans</i>	
RESIDENTIAL						
Basic	1.5M	768K	20GB	5	100.00	49.95
Premium	3M	1.5M	40GB	10		79.95
PremiumPlus	5M	2M	60GB	10		99.95
BUSINESS						
Business	3.5M	3.5M	60GB	20		129.95
Professional	4.5M	4.5M	70GB	25		159.95
Corporate	6M	6M	90GB	30		199.95
Enterprise	8M	8M	120GB	40		249.95
MOUNTAINS						
<i>(Note 2)</i>						
Yokohl, Balch, Bear Creek						
Alpine, Pierpoint, Nelson	1.5M	768K	20GB	5		69.95

(1) Guidelines are the recommended bandwidth usage per month. There is no charge for excess usage, but prioritization may apply during periods of peak overall usage.

(2) Add \$10 monthly rural service fee to any Residential or Business plan.

I Didn't Know That!

- OCS provides "A-to-Z" technology services
- Complete computer service and repair shop
- Variety of Internet access plans and packages
- Professional website development and hosting
- Programming and custom development
- eCommerce solutions
- Computer and Internet technology consulting
- Secure branch office inter-networking
- Internet-based "VOIP" telephone services
